street rates equal to 100 per cent per month. The market for Eastern exchange to-day was quiet and steady. The supply is still greater than the demand, and the market is rather laggy, but we have no change to note in rates. Round lots were sold among bankers at a discount of 1-1/2 discount and currents to add to our list, while strawberries are few, generally small. The peaches are from Georgia, South Carolina, and New Orleans, and the peaches from the Middle West, the same paper giving. On the dry goods trade in Chicago, the same paper observes. Our leading jobbers report an active trade for the season, with more inclination on the part of the country dealers to increase the amount of their stocks. The goods are well received, and all favorite brands. The new articles are from our last quotations. Blended goods continue active. Other domestics, though firm, present no change in value.

The Boston Advertiser says:

We are glad to learn that a contract has been made by the Boston, Hartford and Erie Railroad Company with the State of Massachusetts to extend the line from Boston to Fitchburg. The line is to be completed to Woburn sometime in 20 months, and to Fitchburg within three years. The contractors are to be paid in the bonds authorized by the legislature of Massachusetts, Rhode Island and Connecticut, and Winter.

The Princeton Mine, or the Marietta Estate, is developing rich on the eastward extension, and sufficient ore is being taken out to run the mill night and day. The prospects are more flattering than the old working of the vein at the same depth.

The Albany Journal says:

We learn from the office of the Post Department that a new post office has been established in the Marion Bank, New-York, to reimburse a portion of the canal stock held of this State, due on the first of July next. The amount to be thus paid off is about \$100,000, and consists of the Albany Bank loan, the Oswego Canal loan, and one installment of the Floating Debt loan.

The New-York and Harlem Railroad Company have declared a semi-annual dividend of 4 per cent on the preferred and common stock, free of Government tax, payable on and after the 20th preceding.

The Buffalo Commercial Advertiser of yesterday gives the following statistics of the movements of grain:
